# **Independent Auditor's Report**

Board of Directors Fort Bend County Levee Improvement District No. 10 Fort Bend County, Texas

#### **Opinions**

We have audited the accompanying financial statements of the governmental activities and each major fund of Fort Bend County Levee Improvement District No. 10 (the "District"), as of and for the year ended September 30, 2022, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of Fort Bend County Levee Improvement District No. 10, as of September 30, 2022, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Basis for Opinions**

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### **Required Supplementary Information**

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic or historical context. We have applied

Board of Directors Fort Bend County Levee Improvement District No. 10 Fort Bend County, Texas

certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

# **Supplementary Information**

Ul Grath & Co, Pecco

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The Texas Supplementary Information schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Texas Supplementary Information schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Management's Discussion and Analysis

(This page intentionally left blank)

### **Using this Annual Report**

Within this section of the financial report of Fort Bend County Levee Improvement District No. 10 (the "District"), the District's Board of Directors provides a narrative discussion and analysis of the financial activities of the District for the fiscal year ended September 30, 2022. This analysis should be read in conjunction with the independent auditor's report and the basic financial statements that follow this section.

In addition to this discussion and analysis, this annual report consists of:

- The District's basic financial statements;
- Notes to the basic financial statements, which provide additional information essential to a full understanding of the data provided in the financial statements;
- Supplementary information required by the Governmental Accounting Standards Board (GASB) concerning the District's budget; and
- Other Texas supplementary information required by the District's state oversight agency, the Texas Commission on Environmental Quality (TCEQ).

#### Overview of the Financial Statements

The District prepares its basic financial statements using a format that combines fund financial statements and government-wide statements onto one financial statement. The combined statements are the Statement of Net Position and Governmental Funds Balance Sheet and the Statement of Activities and Governmental Funds Revenues, Expenditures and Changes in Fund Balances. Each statement contains an adjustments column which quantifies the differences between the government-wide and fund level statements. Additional details of the adjustments are provided in Note 2 to the basic financial statements.

## Government-Wide Financial Statements

The focus of government-wide financial statements is on the overall financial position and activities of the District, both long-term and short-term. The District's government-wide financial statements consist of the *Statement of Net Position* and the *Statement of Activities*, which are prepared using the accrual basis of accounting. The *Statement of Net Position* includes all of the District's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the residual reported as net position. Over time, changes in net position may provide a useful indicator of whether the financial position of the District as a whole is improving or deteriorating.

Accounting standards establish three components of net position. The net investment in capital assets component represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets. Resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The restricted component of net position consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties. The unrestricted component of net position represents resources not included in the other components.

The Statement of Activities reports how the District's net position has changed during the fiscal year. All revenues and expenses are included on this statement, regardless of whether cash has been received or paid.

#### **Fund Financial Statements**

The fund financial statements include the *Governmental Funds Balance Sheet* and the *Governmental Funds Revenues, Expenditures and Changes in Fund Balances.* The focus of fund financial statements is on specific activities of the District rather than the District as a whole, reported using modified accrual accounting. These statements report on the District's use of available financial resources and the balances of available financial resources at the end of the year. Except for the General Fund, a specific fund is established to satisfy managerial control over resources or to satisfy finance-related legal requirements established by external parties, governmental statutes or regulations.

For further discussion on the government-wide and fund financial statements, please refer to Note 1 in the financial statements.

#### Financial Analysis of the District as a Whole

The District's net position at September 30, 2022, was \$8,078,864 A comparative summary of the District's overall financial position, as of September 30, 2022 and 2021, is as follows:

	2022	2021
Current and other assets	\$ 5,391,461	\$ 5,381,172
Capital assets	14,672,698	14,724,043
Total assets	20,064,159	20,105,215
Total deferred outflows of resources	85,015	98,393
Current liabilities	912,755	899,137
Long-term liabilities	11,157,555	12,169,781
Total liabilities	12,070,310	13,068,918
Net position		
Net investment in capital assets	2,775,158	1,832,655
Restricted	446,029	496,608
Unrestricted	4,857,677	4,805,427
Total net position	\$ 8,078,864	\$ 7,134,690

The total net position of the District increased during the current fiscal year by \$944,174. A comparative summary of the District's *Statement of Activities* for the past two years is as follows:

	2022	2021
Revenues		
Property taxes, penalties and interest	\$ 3,146,746	\$ 3,064,584
Other	40,919	16,368
Total revenues	3,187,665	3,080,952
Expenses		
Operating and administrative	1,311,797	843,318
Debt interest and fees	339,773	321,255
Debt issuance costs		147,213
Depreciation	591,921	574,592
Total expenses	2,243,491	1,886,378
Change in net position before other item	944,174	1,194,574
Other item		
Change in estimate of due to developer		829,691
Change in net position	944,174	2,024,265
Net position, beginning of year	7,134,690	5,110,425
Net position, end of year	\$ 8,078,864	\$ 7,134,690

## Financial Analysis of the District's Funds

The District's combined fund balances, as of September 30, 2022, were \$5,248,800, which consists of \$4,179,836 in the General Fund, \$429,755 in the Debt Service Fund, and \$639,209 in the Capital Projects Fund.

#### General Fund

A comparative summary of the General Fund's financial position as of September 30, 2022 and 2021 is as follows:

	 2022		2021
Total assets	\$ 4,251,996	\$	3,612,867
75 - 11: 12: ·	22.520	Φ.	22.450
Total liabilities	\$ 33,528	\$	33,159
Total deferred inflows	38,632		37,312
Total fund balance	4,179,836		3,542,396
Total liabilities, deferred inflows and fund balance	\$ 4,251,996	\$	3,612,867

A comparative summary of the General Fund's activities for the current and prior fiscal year is as follows:

	2022		2021
Total revenues	\$ 1,957,089	•	\$ 1,894,932
Total expenditures	(1,319,649)		(1,672,169)
Revenues over expenditures	\$ 637,440		\$ 222,763

The District manages its activities with the objectives of ensuring that expenditures will be adequately covered by revenues each year and that an adequate fund balance is maintained. The District's primary financial resources in the General Fund are from a property tax levy, which is dependent upon assessed values in the District and the maintenance tax rate set by the District. While the District decreased its maintenance tax levy, property tax revenues increased because assessed values in the District increased from the prior year.

#### Debt Service Fund

A comparative summary of the Debt Service Fund's financial position as of September 30, 2022 and 2021 is as follows:

	2022	2021
Total assets	\$ 472,742	\$ 523,248
Total liabilities	\$ -	\$ 747
Total deferred inflows	42,987	40,314
Total fund balance	429,755	482,187
Total liabilities, deferred inflows and fund balance	\$ 472,742	\$ 523,248

A comparative summary of the Debt Service Fund's activities for the current and prior fiscal year is as follows:

	2022	2021
Total revenues	\$ 1,221,513	\$ 1,211,160
Total expenditures	(1,273,945)	(1,200,342)
Revenues over/(under) expenditures	\$ (52,432)	\$ 10,818

The District's financial resources in the Debt Service Fund in both the current year and prior year are from property tax revenues. The difference between these financial resources and debt service requirements resulted in changes in fund balance each year. It is important to note that the District sets its annual debt service tax rate as recommended by its financial advisor, who monitors projected cash flows in the Debt Service Fund to ensure that the District will be able to meet its future debt service requirements.

# Capital Projects Fund

A comparative summary of the Capital Projects Fund's financial position as of September 30, 2022 and 2021 is as follows:

	2022	 2021
Total assets	\$ 666,723	\$ 1,245,057
Total liabilities Total fund balance	\$ 27,514 639,209	\$ 154,338 1,090,719
Total liabilities and fund balance	\$ 666,723	\$ 1,245,057

A comparative summary of activities in the Capital Projects Fund for the current and prior fiscal year is as follows:

	2022	2021
Total revenues	\$ 5,070	\$ 1
Total expenditures	 (456,580)	 (1,000,282)
Revenues under expenditures	(451,510)	 (1,000,281)
Other changes in fund balance	 	 2,115,000
Net change in fund balance	\$ (451,510)	\$ 1,114,719

The District's capital asset activity in the last two years was financed with proceeds from the issuance of its Series 2021 Unlimited Park Tax Bonds.

#### General Fund Budgetary Highlights

The Board of Directors adopts an annual unappropriated budget for the General Fund prior to the beginning of each fiscal year. The Board did not amend the budget during the fiscal year.

Since the District's budget is primarily a planning tool, actual results varied from the budgeted amounts. Actual net change in fund balance was \$92,792 greater than budgeted. The *Budgetary Comparison Schedule* on page 34 of this report provides variance information per financial statement line item.

#### **Capital Assets**

The District has entered into financing agreements with its developers for the financing of the construction of capital assets within the District. Developers will be reimbursed from proceeds of future bond issues or other lawfully available funds. These developer-funded capital assets are recorded on the District's financial statements upon completion of construction.

Capital assets held by the District at September 30, 2022 and 2021 are summarized as follows:

	2022	2021
Capital assets not being depreciated		
Land and improvements	\$ 3,798,448	\$ 3,798,448
Construction in progress	243,792	247,553
	4,042,240	4,046,001
Capital assets being depreciated		
Infrastructure	11,122,012	10,782,655
Parks and recreational facilities	5,986,300	5,781,320
	17,108,312	16,563,975
Less accumulated depreciation		
Infrastructure	(4,205,187)	(3,946,853)
Parks and recreational facilities	(2,272,667)	(1,939,080)
	(6,477,854)	(5,885,933)
Depreciable capital assets, net	10,630,458	10,678,042
Capital assets, net	\$ 14,672,698	\$ 14,724,043

Capital asset additions during the current year include the following:

- Thistlerock park and playground
- Backup sluice gates at pump station
- River Park playground surface replacement

The District's construction in progress include the following:

- Frisbee golf course hardscape and landscaping
- Park at levee master plan
- Overlook trail extension
- Magnolia park

#### Long-Term Debt

At September 30, 2022 and 2021, the District had total bonded debt outstanding as shown below:

Series	 2022	2021
2016 Refunding	\$ 2,955,000	\$ 3,065,000
2017	2,000,000	2,100,000
2019 Refunding	2,380,000	2,925,000
2020 Park Refunding	2,270,000	2,310,000
2021 Park	2,090,000	2,115,000
	\$ 11,695,000	\$ 12,515,000

At September 30, 2022, the District had \$4,850,000 unlimited tax bonds authorized, but unissued for the purposes of acquiring, constructing and improving flood protection and drainage systems within the District; \$4,285,000 for parks and recreational facilities; and \$8,959,580 for refunding purposes.

## Next Year's Budget

In establishing the budget for the next fiscal year, the Board considered various economic factors that may affect the District, most notably projected revenues from property taxes and the projected cost of operating the District. A comparison of next year's budget to current year actual amounts for the General Fund is as follows:

	2022 Actual	2023 Budget
Total revenues	\$ 1,957,089	\$ 1,601,421
Total expenditures	(1,319,649)	(909,150)
Revenues over expenditures	637,440	692,271
Beginning fund balance	3,542,396	4,179,836
Ending fund balance	\$ 4,179,836	\$ 4,872,107

#### **Property Taxes**

The District's property tax base increased approximately \$62,972,000 for the 2022 tax year from \$475,785,425 to \$538,757,197. This increase was primarily increased property values. For the 2022 tax year, the District has levied a maintenance tax rate of \$0.385 per \$100 of assessed value and a debt service tax rate of \$0.225 per \$100 of assessed value, for a total combined tax rate of \$0.61 per \$100. Tax rates for the 2021 tax year were \$0.4064 per \$100 for maintenance and operations and \$0.25 per \$100 for debt service for a combined total of \$0.6564 per \$100 of assessed value.

### Note 1 – Summary of Significant Accounting Policies

The accounting policies of Fort Bend County Levee Improvement District No. 10 (the "District") conform with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board ("GASB"). The following is a summary of the most significant policies:

#### Creation

The District was organized, created and established pursuant to an order of the Commissioner's Court of Fort Bend County, Texas dated December 12, 1988, and operates in accordance with the Texas Water Code, Chapters 49 and 57. The Board of Directors held its first meeting on May 16, 1996, and the first bonds were issued on March 18, 2002.

The District's primary activities include construction, maintenance and operation of a levee system to protect the land within its boundaries from flooding from the Brazos River. Additionally, the District has the responsibility to maintain and operate park and recreational facilities. The District has contracted with various consultants to provide services to operate and administer the affairs of the District. The District has no employees, related payroll or pension costs.

#### **Reporting Entity**

The District is a political subdivision of the State of Texas governed by a three-member Board of Directors appointed by the Fort Bend County Commissioners Court. The GASB has established the criteria for determining the reporting entity for financial statement reporting purposes. To qualify as a primary government, a government must have a separately elected governing body, be legally separate and be fiscally independent of other governments. Since the District does not have an elected governing body, it is not a primary government. A component unit is a legally separate government for which the elected officials of a primary government are financially accountable. The criteria used to determine financial accountability is whether the primary government appoints a voting majority of the component unit's governing body and (1) is able to impose its will on the component unit or (2) the component unit creates a financial benefit/burden for the primary government. While the County appoints the Directors of the District, it has no further financial accountability for the District. Under these criteria, the District is not a component unit of the County or any other governmental entity. An other stand-alone government is an entity that does not have a separately elected governing body and is not a component unit of another government. For financial reporting purposes, the District is a stand-alone government. Additionally, no other entities meet the criteria for inclusion in the District's financial statements as component units.

#### Government-Wide and Fund Financial Statements

Government-wide financial statements display information about the District as a whole. These statements focus on the sustainability of the District as an entity and the change in aggregate financial position resulting from the activities of the fiscal period. Interfund activity, if any, has been removed from these statements. These aggregated statements consist of the *Statement of Net Position* and the *Statement of Activities*.

### Note 1 – Summary of Significant Accounting Policies (continued)

#### Government-Wide and Fund Financial Statements (continued)

Fund financial statements display information at the individual fund level. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for a specific purpose. Each fund is considered to be a separate accounting entity. Most governments typically have many funds; however, governmental financial statements focus on the most important or "major" funds with non-major funds aggregated in a single column. The District has three governmental funds, which are all considered major funds.

The following is a description of the various funds used by the District:

- <u>The General Fund</u> is used to account for the operations of the District and all other financial transactions not reported in other funds. The principal source of revenue is property taxes. Expenditures include costs associated with the daily operations of the District.
- <u>The Debt Service Fund</u> is used to account for the payment of interest and principal on the District's general long-term debt. The primary source of revenue for debt service is property taxes. Expenditures include costs incurred in assessing and collecting these taxes.
- <u>The Capital Projects Fund</u> is used to account for the expenditures of bond proceeds for the construction of the District's levee system and drainage facilities.

As a special-purpose government engaged in a single governmental program, the District has opted to combine its government-wide and fund financial statements in a columnar format showing an adjustments column for reconciling items between the two.

#### Measurement Focus and Basis of Accounting

The government-wide financial statements use the economic resources measurement focus and the full accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied.

The fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized in the accounting period in which it becomes both available and measurable to finance expenditures of the current period. For this purpose, the government considers revenues to be available if they are collected within sixty days of the end of the current fiscal period. Revenues susceptible to accrual include property taxes and interest earned on investments. Property taxes receivable at the end of the fiscal year are treated as deferred inflows because they are not considered available to pay liabilities of the current period. Expenditures are recognized in the accounting period in which the liability is incurred, if measurable, except for unmatured interest on long-term debt, which is recognized when due.

Note 2 further details the adjustments from the governmental fund presentation to the government-wide presentation.

### Note 1 – Summary of Significant Accounting Policies (continued)

#### Use of Restricted Resources

When both restricted and unrestricted resources are available for use, the District uses restricted resources first, then unrestricted resources as they are needed.

#### **Prepaid Items**

Certain payments made by the District reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements.

#### Receivables

All receivables are reported at their gross value and, where appropriate, are reduced by the estimated portion that is expected to be uncollectible. Receivables from and payables to external parties are reported separately and are not offset, unless a legal right of offset exists. At September 30, 2022, an allowance of \$152 was provided for possible uncollectible property taxes.

#### **Interfund Activity**

During the course of operations, transactions occur between individual funds. This can include internal transfers, payables and receivables. This activity is combined as internal balances and is eliminated in both the government-wide and fund financial statement presentation.

#### **Capital Assets**

Capital assets do not provide financial resources at the fund level, and, therefore, are reported only in the government-wide statements. The District defines capital assets as assets with an initial cost of \$50,000 or more and an estimated useful life in excess of one year. Capital assets are recorded at historical cost or estimated historical cost. Donated capital assets are recorded at acquisition value, which is the price that would be paid to acquire the asset on the acquisition date. The District has not capitalized interest incurred during the construction of its capital assets. The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend asset lives are not capitalized.

Depreciable capital assets are depreciated using the straight-line method as follows:

Assets	Useful Life
Infrastructure	10-50 years
Parks and recreational facilities	10-20 years

The District's levee system is considered improvements to land and are non-depreciable.

# Note 1 – Summary of Significant Accounting Policies (continued)

#### **Deferred Inflows and Outflows of Financial Resources**

A deferred inflow of financial resources is the acquisition of resources in one period that is applicable to a future period, while a deferred outflow of financial resources is the consumption of financial resources in one period that is applicable to a future period. A deferred inflow results from the acquisition of an asset without a corresponding revenue or assumption of a liability. A deferred outflow results from the use of an asset without a corresponding expenditure or reduction of a liability.

At the fund level, property taxes receivable not collected within 60 days of fiscal year end do not meet the availability criteria required for revenue recognition and are recorded as deferred inflows of financial resources.

Deferred outflows of financial resources at the government-wide level are from refunding bond transactions in which the amount required to repay the old debt exceeded the net carrying amount of the old debt. This amount is being amortized to interest expense.

#### Net Position – Governmental Activities

Governmental accounting standards establish the following three components of net position:

Net investment in capital assets – represents the District's investments in capital assets, less any outstanding debt or other borrowings used to acquire those assets.

Restricted – consists of financial resources that are restricted for a specific purpose by enabling legislation or external parties.

Unrestricted – resources not included in the other components.

#### Fund Balances – Governmental Funds

Governmental accounting standards establish the following fund balance classifications:

Nonspendable - amounts that cannot be spent either because they are in nonspendable form or because they are legally or contractually required to be maintained intact. The District's nonspendable fund balance consists of prepaid items.

Restricted - amounts that can be spent only for specific purposes because of constitutional provisions or enabling legislation or because of constraints that are externally imposed by creditors, grantors, contributors, or the laws or regulations of other governments. The District's restricted fund balances consist of unspent bond proceeds in the Capital Projects Fund and property taxes levied for debt service in the Debt Service Fund.

# Note 1 – Summary of Significant Accounting Policies (continued)

# Fund Balances – Governmental Funds (continued)

Committed - amounts that can be used only for specific purposes determined by a formal action of the Board of Directors. The Board is the highest level of decision-making authority for the District. Commitments may be established, modified, or rescinded only through ordinances or resolutions approved by the Board. Committed fund balance also incorporates contractual obligations to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual requirements. The District does not have any committed fund balances.

Assigned - amounts that do not meet the criteria to be classified as restricted or committed but that are intended to be used for specific purposes. The District's assigned fund balance consists of financial resources set aside by the Board for use in an emergency.

Unassigned - all other spendable amounts in the General Fund.

When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the District considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

#### Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and revenues and expenses/expenditures during the period reported. These estimates include, among others, the collectability of receivables and the useful lives and impairment of capital assets. Estimates and assumptions are reviewed periodically, and the effects of revisions are reflected in the financial statements in the period they are determined to be necessary. Actual results could differ from the estimates.

# Note 2 – Adjustment from Governmental to Government-wide Basis

# Reconciliation of the Governmental Funds Balance Sheet to the Statement of Net Position

Total fund balance, governmental funds		\$ 5,248,800
Capital assets used in governmental activities are not financial resources and, therefore, are not reported as assets in governmental funds.  Historical cost Less accumulated depreciation Change due to capital assets	\$ 21,150,552 (6,477,854)	14,672,698
The difference between the face amount of bonds refunded and the amount paid to the escrow agent is recorded as a deferred difference on refunding in the <i>Statement of Net Position</i> and amortized to interest expense. It is not recorded in the fund statements because it is not a financial resource.		85,015
Long-term liabilities are not due and payable in the current period and, therefore, are not reported as liabilities in the governmental funds. The difference consists of:	(44,000,555)	
Bonds payable, net	(11,982,555)	
Interest payable on bonds Change due to long-term debt	(26,713)	(12,009,268)
Property taxes receivable and related penalties and interest have been levied and are due, but are not available soon enough to pay current period expenditures and, therefore, are deferred in the funds.  Property taxes receivable Penalty and interest receivable	62,667 18,952	
Change due to property taxes		81,619
Total net position - governmental activities		\$ 8,078,864

# Note 2 – Adjustment from Governmental to Government-wide Basis (continued)

# Reconciliation of the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances to the Statement of Activities

Net change in fund balances - total governmental funds		\$ 133,498
Governmental funds do not report revenues that are not available to pay current obligations. In contrast, such revenues are reported in the <i>Statement of Activities</i> when earned. The difference is for property taxes and penalties and interest.		3,993
Governmental funds report capital outlays for construction costs as expenditures in the funds; however, in the <i>Statement of Activities</i> , the cost of capital assets is charged to expense over the estimated useful life of the asset.		
Capital outlays Depreciation expense	\$ 540,575 (591,921)	(51,346)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of principal uses current financial resources. However, neither transaction has any effect on net position. Other elements of debt financing are reported differently between the fund and government wide statements.		
Principal payments	820,000	
Interest expense accrual	38,029	858,029
Change in net position of governmental activities		\$ 944,174

#### Note 3 – Deposits and Investments

#### Deposit Custodial Credit Risk

Custodial credit risk as it applies to deposits (i.e. cash and certificates of deposit) is the risk that, in the event of the failure of the depository institution, a government will not be able to recover its deposits or will not be able to recover collateral securities. The *Public Funds Collateral Act* (Chapter 2257, Texas Government Code) requires that all of the District's deposits with financial institutions be covered by federal depository insurance and, if necessary, pledged collateral held by a third-party custodian. The act further specifies the types of securities that can be used as collateral. The District's written investment policy establishes additional requirements for collateralization of deposits.

### Note 3 – Deposits and Investments (continued)

#### **Investments**

The District is authorized by the *Public Funds Investment Act* (Chapter 2256, Texas Government Code) to invest in the following: (1) obligations, including letters of credit, of the United States or its agencies and instrumentalities, including Federal Home Loan Banks, (2) direct obligations of the State of Texas or its agencies and instrumentalities, (3) certain collateralized mortgage obligations, (4) other obligations, which are unconditionally guaranteed or insured by the State of Texas or the United States or its agencies or instrumentalities, including obligations that are fully guaranteed or insured by the Federal Deposit Insurance Corporation or by the explicit full faith and credit of the United States, (5) certain A rated or higher obligations of states and political subdivisions of any state, (6) bonds issued, assumed or guaranteed by the State of Israel, (7) certain insured or collateralized certificates of deposit and share certificates, (8) certain fully collateralized repurchase agreements, (9) bankers' acceptances with limitations, (10) commercial paper rated A-1 or P-1 or higher and a maturity of 270 days or less, (11) no-load money market mutual funds and no-load mutual funds, with limitations, (12) certain guaranteed investment contracts, (13) certain qualified governmental investment pools and (14) a qualified securities lending program.

The District has adopted a written investment policy to establish the principles by which the District's investment program should be managed. This policy further restricts the types of investments in which the District may invest.

As of September 30, 2022, the District's investments consist of the following:

					Weighted
		Carrying	Percentage		Average
Type	Fund	Value	of Total	Rating	Maturity
Certificates of deposit	General	\$ 1,470,000	28%	N/A	N/A
TexPool	General	2,701,451			
	Debt Service	390,853			
	Capital Projects	666,373			
		3,758,677	72%	AAAm	25 days
Total		\$ 5,228,677	100%		
Total		\$ 666,373 3,758,677		AAAm	25 days

The District's investments in certificates of deposit are reported at cost.

### Note 3 – Deposits and Investments (continued)

#### TexPool

The District participates in TexPool, the Texas Local Government Investment Pool. The State Comptroller of Public Accounts exercises oversight responsibility of TexPool, which includes (1) the ability to significantly influence operations, (2) designation of management and (3) accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. The Advisory Board members review the investment policy and management fee structure.

As permitted by GAAP, TexPool uses amortized cost (which excludes unrealized gains and losses) rather than market value to compute share price and seeks to maintain a constant dollar value per share. Accordingly, the fair value of the District's position in TexPool is the same as the value of TexPool shares. Investments in TexPool may be withdrawn on a same day basis, as long as the transaction is executed by 3:30 p.m.

#### **Investment Credit and Interest Rate Risk**

Investment credit risk is the risk that the investor may not recover the value of an investment from the issuer, while interest rate risk is the risk that the value of an investment will be adversely affected by changes in interest rates. The District's investment policies do not address investment credit and interest rate risk beyond the rating and maturity restrictions established by state statutes.

#### Note 4 – Interfund Balances and Transactions

Amounts due to/from other funds at September 30, 2022, consist of the following:

Receivable Fund	Payable Fund	A	mounts	Purpose
General Fund	Debt Service Fund	\$	21,982	Maintenance tax collections not
				remitted as of year end

Amounts reported as internal balances between funds are considered temporary balances and will be paid during the following fiscal year.

Note 5 – Capital Assets

A summary of changes in capital assets, for the year ended September 30, 2022, is as follows:

	 Beginning Balances	dditions/ ljustments	Re	etirements	Ending Balances
Capital assets not being depreciated					
Land and improvements	\$ 3,798,448	\$ -	\$		\$ 3,798,448
Construction in progress	247,553	127,261		(131,022)	243,792
	4,046,001	127,261		(131,022)	4,042,240
Capital assets being depreciated					
Infrastructure	10,782,655	339,357			11,122,012
Parks and recreational facilities	5,781,320	204,980			5,986,300
	16,563,975	544,337			17,108,312
Less accumulated depreciation					
Infrastructure	(3,946,853)	(258,334)			(4,205,187)
Parks and recreational facilities	 (1,939,080)	(333,587)			(2,272,667)
	(5,885,933)	(591,921)			(6,477,854)
Subtotal depreciable capital assets, net	10,678,042	(47,584)			10,630,458
Capital assets, net	\$ 14,724,043	\$ 79,677	\$	(131,022)	\$ 14,672,698

Depreciation expense for the current year was \$591,921.

The District has contractual commitments for construction projects as follows:

	Contract	Percentage
	Amount	Completed
Frisbee golf course - hardscape and landscaping	\$ 149,754	5%

#### Note 6 – Due to Developers

The District has entered into financing agreements with its developers for the financing of the construction of flood protection, drainage facilities and landscaping improvements. Under the agreements, the developers will advance funds for the construction of facilities to serve the District. The developers will be reimbursed from proceeds of future bond issues or other lawfully available funds, subject to approval by TCEQ, as applicable. The District does not record the capital asset and related liability on the government-wide statements until construction of the facilities is complete. The initial cost is estimated based on construction costs plus 10-15% for engineering and other fees. Estimates are trued up when the developer is reimbursed.

# Note 6 – Due to Developers (continued)

Changes in the estimated amounts due to developers during the year are as follows:

Due to developers, beginning of year	\$ 135,000
Developer reimbursements	(135,000)
Due to developers, end of year	\$ -

## Note 7 – Long-Term Debt

Long-term debt is comprised of the following:

Bonds payable	\$ 11,695,000
Unamortized discounts	(18,674)
Unamortized premium	266,524
Premium on CABs	38,560
Accreted interest on CABs	 1,145
	\$ 11,982,555
Due within one year	\$ 825,000

The District's bonds payable at September 30, 2022, consists of unlimited tax bonds as follows:

				Maturity Date,		
				Serially,	Interest	
	Amounts	Original	Interest	Beginning/	Payment	Call
Series	Outstanding	Issue	Rates	Ending	Dates	Dates
2016	\$ 2,955,000	\$ 3,595,000	2.00% - 4.00%	September 1,	March 1,	September 1,
Refunding				2017/2032	September 1	2024
2017	2,000,000	2,500,000	2.00% - 3.50%	September 1,	March 1,	September 1,
				2018/2038	September 1	2024
2019	2,380,000	3,480,000	2.00% - 3.00%	March 1,	March 1,	March 1,
Refunding				2020/2027	September 1	2024
2020 Park	2,270,000	2,310,000	2.00%	March 1,	March 1,	March 1,
Refunding				2022/2038	September 1	2027
2021	2,090,000	2,115,000	2.00%	March 1,	March 1,	March 1,
Park				2022/2037	September 1	2027
	\$ 11,695,000					

Payments of principal and interest on all series of bonds are to be provided from taxes levied on all properties within the District. Investment income realized by the Debt Service Fund from investment of idle funds will be used to pay outstanding bond principal and interest. The District is in compliance with the terms of its bond resolutions.

# Note 7 – Long-Term Debt (continued)

At September 30, 2022, the District had authorized but unissued bonds in the amount of \$4,850,000 for flood protection and drainage facilities; \$4,285,000 for park and recreational facilities; and \$8,959,580 for refunding purposes.

The change in the District's long-term debt during the year is as follows:

Bonds payable, beginning of year	\$ 12,515,000
Bonds retired	 (820,000)
Bonds payable, end of year	\$ 11,695,000

A portion of the Series 2020 park refunding bond issue consists of capital appreciation bonds. These obligations have a par value of \$75,000 and a maturity value of \$145,000. The interest on these obligations will be paid upon maturity in the fiscal years ending September 30, 2022 to September 30, 2023. The accreted value of these bonds, at September 30, 2022, is approximately \$1,145. Accordingly, accrued interest on these bonds of \$1,145 has been recorded in the government-wide financial statements.

As of September 30, 2022, annual debt service requirements on bonds outstanding are as follows:

Year	I	Principal		Interest		Totals
2023	\$	825,000		\$ 323,038	\$	1,148,038
2024		880,000		297,538		1,177,538
2025		895,000		270,888		1,165,888
2026		910,000		246,763		1,156,763
2027		675,000		230,213		905,213
2028		685,000		209,713		894,713
2029		700,000		185,913		885,913
2030		700,000		161,713		861,713
2031		710,000		137,563		847,563
2032		710,000		113,263		823,263
2033		605,000		85,863		690,863
2034		630,000		71,994		701,994
2035		645,000		57,725		702,725
2036		650,000		43,088		693,088
2037		660,000		28,300		688,300
2038		815,000		11,525		826,525
	\$	11,695,000	_	\$ 2,475,100	\$	14,170,100

### Note 8 – Property Taxes

On January 17, 1998, the voters of the District authorized the District's Board of Directors to levy taxes annually for use in financing general operations limited to \$1.00 per \$100 of assessed value. On May 14, 2011, the voters authorized an additional \$1.00 operational and maintenance tax for parks and recreational services. The District's bond resolutions require that property taxes be levied for use in paying interest and principal on long-term debt and for use in paying the cost of assessing and collecting taxes. Taxes levied to finance debt service requirements on long-term debt are without limitation as to rate or amount.

All property values and exempt status, if any, are determined by the Fort Bend Central Appraisal District. Assessed values are determined as of January 1 of each year, at which time a tax lien attaches to the related property. Taxes are levied around October/November, are due upon receipt and are delinquent the following February 1. Penalty and interest attach thereafter.

Property taxes are collected based on rates adopted in the year of the levy. The District's 2022 fiscal year was financed through the 2021 tax levy, pursuant to which the District levied property taxes of \$0.6564 per \$100 of assessed value, of which \$0.4064 was allocated to maintenance and operations and \$0.25 was allocated to debt service. The resulting tax levy was \$3,123,056 on the adjusted taxable value of \$475,785,425.

Net property taxes receivable, at September 30, 2022, consisted of the following:

Current year taxes receivable	\$ 34,267
Prior years taxes receivable	28,552
Less allowance for uncollectible accounts	(152)
	62,667
Penalty and interest receivable	62,667 18,952

#### Note 9 – Landscape Maintenance Agreement

On March 1, 2017, the District entered into a landscape maintenance agreement with Riverpark on the Brazos Property Owners Association, Inc (the "POA") to finance the maintenance of certain open spaces and greenbelts within the District. The District agrees to pay, on a monthly basis, the actual costs billed to the POA for maintenance, excluding extraordinary, and/ or capital expenses, not to exceed \$175,000 per year. Effective January 1, 2022, the District amended the agreement to increase its contribution to not exceed \$200,000 annually. During the current fiscal year, the District paid \$193,750 to the POA for monthly maintenance costs.

# Note 10 – Risk Management

The District is exposed to various risks of loss related to torts: theft of, damage to and destruction of assets; errors and omissions; and personal injuries. The risk of loss is covered by commercial insurance. There have been no significant reductions in insurance coverage from the prior year. Settlement amounts have not exceeded insurance coverage for the current year or the three prior years.

Required Supplementary Information

### Fort Bend County Levee Improvement District No. 10 Required Supplementary Information - Budgetary Comparison Schedule - General Fund For the Year Ended September 30, 2022
